Location: Cunningham Road, Bangalore

With over 40 hospitals across the country, over 5000 beds and 48000 surgical procedures in the last year alone, Fortis is one of India's largest healthcare and Asia's fastest growing networks.

Fortis Hospitals, Bangalore comprises three facilities located in the city of Bangalore.

Fortis Hospitals Cunningham Road is a super speciality hospital located in the heart of the city. For over two decades, this hospital has spearheaded cardiac care in the region through path breaking procedures that have not just saved lives, but also created medical history. Led by a team of the country's finest cardiac surgeons and cardiologists, this hospital has treated patients from around the world and now also offers super speciality services in Bone and Joint, Urology and Digestive Care.

The state-of-the-art Urology Care department at the facility is made up of an ideal combination of people, process and technology to give patients the best care under one roof. The team of renowned specialists is equipped with advanced technology such as 180 watts DIODE "LIFE" Laser, Dornier Lithotripter, 3-Chip Camera and C-Arm.

With a team of experienced gastroenterologists at the helm, the Digestive Care department offers comprehensive solutions to all kinds of digestive disorders. Cutting edge technology and a multi disciplinary approach have ensured high success rates.

Backed by years of experience, the latest in medical technology and world-class infrastructure, the Bone and Joint Care department offers a wide range of medical and surgical solutions. The department also has a multi-function physiotherapy department that facilities speedy recovery and ensures early mobilization of patients.
